PRESENTATION

We are pleased to announce the opening of the call for **abstract** applications for the First **National Conference** on **Materials Applications and Renewable Energy** in Hybrid Mode (On-site and Online) **NC-MARE 2026**, which will take place on **24-25 June 2026** at the University of Boumerdes.

This conference will bring together researchers, engineers, and industry experts to discuss the challenges and solutions that materials applications offer to accelerate the energy transition.

Objectives of the conference

- ❖ Discuss the latest innovations and advancements in materials applications for renewable energy, energy storage and efficiency.
- ❖ Promote synergies between the academic research, industry, and government sectors.
- ❖ Discover innovative opportunities for sustainable development through next-generation materials applications.
- ❖ Evaluate the technical and economic challenges associated with the large-scale adoption of these technologies.

MAIN THEMES

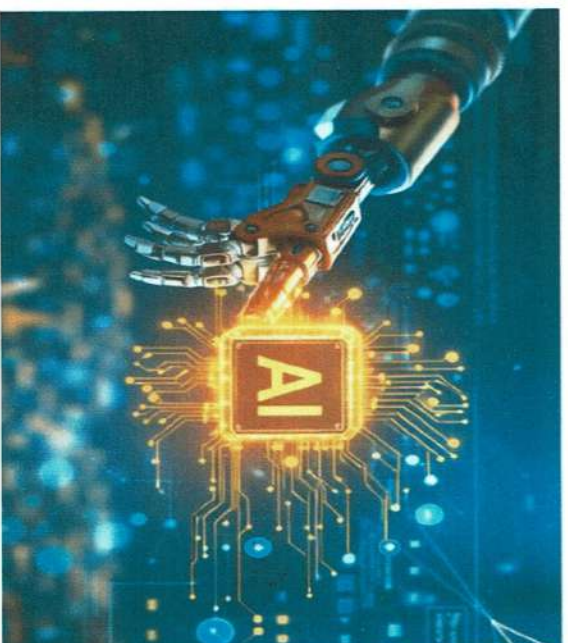

Submissions for abstracts are invited based on the following topics :

1- Materials Science & Applications

- Physical Chemistry of Materials
- Nanomaterials and Nanotechnology
- Soft Matter Physics, Polymers & Hybrid Materials
- Multiscale modeling and AI for materials

2- Renewable Energy Systems

- Renewable energy and Storage
- Computational fluid dynamics
- Sustainable and Green Energy Technologies
- Heat and mass transfer
- Hydrogen Energy Systems and Applications
- Nanofluids for Enhanced Heat Transfer

IMPORTANT DATES

Abstracts Submission deadline: **20 May 2026**

Acceptance Notification: **01 June 2026**

Participation Confirmation : **12 June 2026**

Conference Date : **24 - 25 June 2026**

Abstracts Submission

Authors are invited to submit their abstracts for review written in English to:
