

PAPER PUBLICATION

Best papers, in a relevant theme, will be invited to submit the final version to Special Issue Journals (agreements are under discussion with some of the following journal list):

- Elsevier. Materials Today: Proceedings
- IOP Conference Series: Materials Science and Engineering
- Matec Web of Conferences
- Algerian Journal of Materials Chemistry

Most of these Journals are indexed in Scopus, (Web of Science) Conference Proceedings Citation Index, Journal Citation Reports (Clarivate Analytics), and Thomson Reuters (Clarivate Analytics).

IMPORTANT DATES

Abstract submission is closed!

February 20, 2021: Displaying the list of accepted abstracts

March 20, 2021: Notification to authors

April 15, 2021: e-Poster submission for presentation (short video max. 3 minutes long)

May 2, 2021: ISyMC2021 Final Program

16-20 May 2021: Symposium dates

SUBMISSION & REGISTRATION

The abstracts for oral presentation and poster should be submitted before Wednesday **Saturday 31th October 2020**.

The registration to the symposium is only possible via the **online registration**.

The selection committee will process your submission and confirm your oral or poster presentation not later than the **28th December 2020**.

Organiser /Contact

For more details on the symposium, final venue, registration, sponsorship opportunities, accommodation and transportation please visit the symposium website at

2nd

International Symposium on Materials Chemistry

Third Announcement

May **16 –20**, 20**21**

Univ. Boumerdes, Algeria

ISyMC 2021, 2nd International Symposium on Materials Chemistry, will take place in Boumerdes, Algeria, on 16–20 May. 2021.

The Second Symposium on Materials Chemistry (ISyMC2021) aims to bring international and national researchers to high-level exchange on emerging solutions and technologies in the fields of materials science. This international conference organized by the Chemistry department of the University M'hamed Bougara Boumerdes, aims to encourage exchange between participants on the most recent advances in chemical engineering, chemistry materials science, and energetic materials, etc.

The symposium will cover different topics linked to materials synthesis and characterization, interfacial phenomena, systems and materials optimization and modeling. Leading scientists and researchers will share their recent progress and stimulate discussions on multidisciplinary research activities.

The Virtual symposium is scheduled for 16-20 May 2021

Therefore, all presenters for ISyMC'2021 workshop must prepare a Video Presentation following the guidelines given below:

-All presenters are required to have a valid Gmail account.

-Video presentation must not exceed 10 minutes for oral presentation and 5 minutes for Poster presentation.

-Video presentation should be sent via email isymc2020@gmail.com by **April 15th, 2021**.

Presentation will be scheduled and opened for all registered authors using Google Meet: Conference.

Guidelines for e-poster presenters:

Posters will be presented as e-posters, in a form of Power Point presentations. Each poster may include a maximum of 1 slide. In addition, if you like, you may send a short video presentation of your poster, max. 5 minutes long.

-Please send your poster file and your video in advance by April 15th, 2021 to isymc2020@gmail.com

-Please name your poster and video file using your last name.

Poster presenters will be able to interact with the conference participants during the poster session and throughout the conference via the networking tool on the conference platform. More information will be provided closer to the conference.

ISyMC Symposium focuses on new results on

The conference will aim to increase the interaction and understanding about major issues concerning composite materials. Sessions will be led by leading experts with topics including:

► Topic 1. Inorganic Materials Chemistry

Keywords: concrete and cementitious composites, ceramics matrix and glass, Metals and alloys

► Topic 2. Organic Materials Chemistry

Keywords: polymer matrix composites, nanocomposites, Elastomers and rubber, Paint, varnishes and glues, Resins and solvents...

► Topic 3. Green Chemistry

Keywords: wood and paper Ecology, Water treatment, Sustainable chemistry, Renewable energy, Waste management and recovery, recycling, life cycle analysis and sustainability...

► Topic 4. Processing and manufacturing technologies

Keywords: Experimental techniques standardization, nanotechnologies.

Together with the topics above, suggestions for other topics as well are warmly welcome and can be forwarded to the Organising Committees.

Keynote papers will be identified by the organisers from the abstracts submitted.

ISyMC is the premium event to meet the leading specialists, to share expertise and to strengthen cooperation. About 650 attendees will gather to discuss the current results presented in several oral sessions and an additional poster session.

Committee

Honorary Chairmans

Pr. Mustapha YAH, Rector of University M'hamed Bougara Bumerdes. Algeria

Dr. Khaldoun BACHARI, Director of CRAPC. Algeria

Chairmen

Dr. Amar IREKTI, FS, University M'hamed Bougara of Bumerdès, Algeria (a.irekti@univ-bumerdes.dz)

Scientific Committee

Pr. AMRANE Abdeltif, Univ. de Rennes 1. France
Dr. ABBAS Moussa, Univ. Bumerdes, Algeria
Pr. ASMA Farid. Univ. Tizi Ouzou, Algeria
Pr. AIT TAHAR Kamel., Univ. Bouira, Algeria
Pr. AKNOUCHE Hamid., Univ. Bumerdes, Algeria
Pr. ALIOUCHE Djamel., Univ. Bumerdes, Algeria
