Ministry of Higher learning and Scientific Research

M'hammed bougara university

Faculty of Economics, Business and Management
Sciences

The Faculty of Economics, Business and
Management Sciences is organizing, in
collaboration with the Laboratory

Title of the day's study :

Accounting and tax management of sports
companies

Subject of the day's study

Algeria has adopted the principle of professionalism for sports teams in the championship; they have transformed from amateur sports to economic entities governed by commercial law, and are therefore legally required to keep accounting records in accordance with the Algerian financial accounting system and comply with tax and social security laws, either for their income subject to direct taxes and similar rights, or for social insurance.

The issue: how to ensure management the accounting and taxation of sports companies?
